About Me

Experienced web developer with a passion for creating dynamic and user-friendly websites. Skilled in HTML, CSS, JavaScript, and modern web development frameworks. Proficient in MongoDB, Express.js, React.js, and Node.js, with a strong foundation in front-end and back-end development. Adept at working in fast-paced environments, collaborating with cross-functional teams, and delivering high-quality software solutions. Passionate about coding, continuous learning, and staying updated with the latest industry trends.

Experience

MERN Stack Developer

- Developed and maintained company website using both frontend and backend skills.
- Work with a team of 5 developers to implement new features and improve user experience.
- Worked closely with designers to create a responsive and visually appealing website.
- Designed and developed both client and server sides of landing pages, blogs, and e-commerce sites.

Competitive Programming (CP)

- Participated in Programming Contests and achieved good rank by solving problems in most of them.
- Solved 100 problems in Beecrowd, more than 100 problems in Codeforces using C,C++ and Python.
- Participated in Codeforces programming contests and my rating is 907 at present.
- Solved Data Structure & Algorithm related problems in Leetcode.

Education

Undergraduate in Computer Science and Engineering.
Begum Rokeya University, Rangpur, Bangladesh.
