About Me

I am a web developer with a passion for creating dynamic and user-friendly websites. Have strong foundation in front-end and back-end development. Passionate about coding, continuous learning, and staying updated with the latest industry trends.

Projects

Samantha's Fusion Flavors

Samantha's Fusion Flavors is a fully responsive restaurant website where great food starts with great ingredients.

- Implemented an interactive menu section where users can view various food items with detailed descriptions, prices, and images.
- Integrated an online reservation system that allows users to book tables directly from the website, streamlining the dining experience.
- Optimized the website's performance by implementing lazy loading, image compression, and other techniques to ensure fast loading times.

Golds Gym

Golds Gym is a fitness website where various types of exercise are displayed with guidelines.

- Developed a fitness app featuring a vast database of exercises categorized by body parts and exercise type, allowing users to easily find and follow workouts.
- Created a fully responsive interface that adapts seamlessly to various screen sizes, providing an optimal user experience on mobile, tablet, and desktop devices.
- Integrated with external fitness APIs to provide real-time data on exercises and tutorial videos.

QuickWheels

QuickWheels is a car rental website where user can rent car.

- Developed a seamless car rental booking system, enabling users to easily search, select, and reserve vehicles with an intuitive interface.
- Implemented dynamic pricing features, allowing the site to adjust rental rates based on factors like duration, vehicle type, and demand.
- Designed the site to be fully responsive, ensuring a consistent and optimized experience across all devices.
